

Honda

06 **RIDGELINE**

**It's a truck. And it's a Honda.  
And it's like nothing you've  
ever seen before.**

When Honda does something, we do it right. And we do it better. Introducing the Ridgeline, a next-generation truck from Honda. It's tough, big and plenty powerful. And it's a Honda, so it's packing way more versatility, innovation and performance than your run-of-the-mill box on wheels. For starters, check out the huge In-Bed Trunk™ and an interior just as comfortable as it is utilitarian. Then get out on a rough road, and feel all four wheels smoothly power you ahead like there's nothing to it. Make no mistake, the new Ridgeline is all truck - and then some.

**BREAK GROUND**

Ridgeline RT shown in Rock Silver Metallic

Photograph taken in an approved designated off-road parking area

Ridgeline RTL shown in Brilliant Silver Metallic

There's living a full life.  
Then there's living it by the truckload.

Ridgeline RTL shown in Billet Silver Metallic with available moonroof.

1/2-TON PAYLOAD

BED SIZE:

49.5" x 60" TAILGATE UP

49.5" x 73" TAILGATE DOWN

TAILGATE SWINGS OUT

8.5 CU. FT. IN-BED TRUNK

TAILGATE FOLDS DOWN

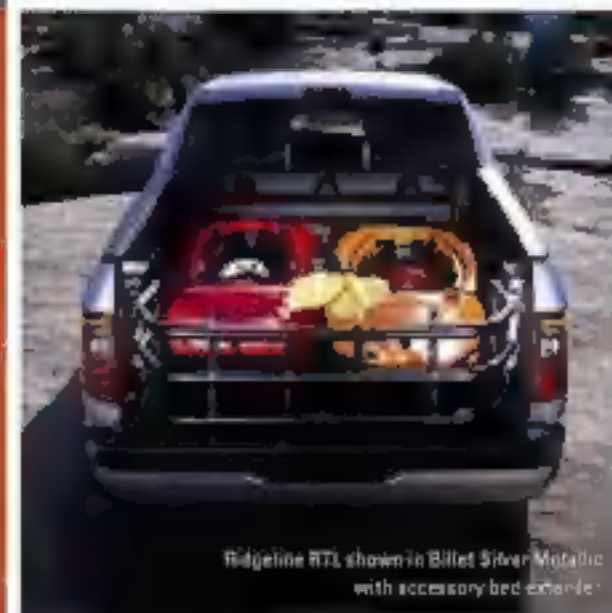

# MULTI

## Faceted function

Swing the dual-action tailgate to the side for quick access to the huge In-Bed Trunk. It'll swallow a weekend's worth of gear, easy. The tailgate can also fold down, and is designed to support 300 lbs. while driving. Slide in a thick stack of tall plywood or load a couple Honda dirt bikes or an ATV.\* The 5-foot-long, super-durable, steel-reinforced composite cargo bed resists dents and corrosion, and is reinforced by high-strength steel crossmembers to handle a 1/2-ton payload. And cargo lights and tie-downs help make loading a breeze.

\*Always remember you to properly secure all items stored in the cargo area.

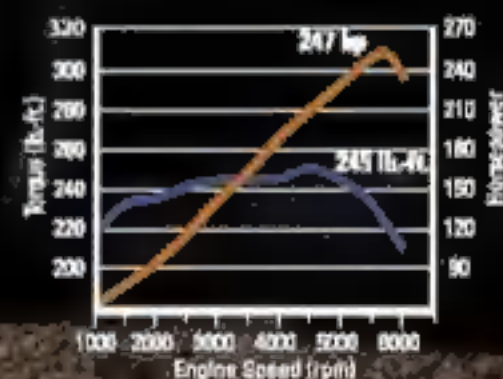

Ridgeline RTL shown in Billet Silver Metallic with accessory bed extender.

Ridgeline RTD shown in Nighthawk Black Pearl.

# 247<sup>HP</sup>

Under the Ridgeline's hood, brown meets a whole lot of brass. Honda high-tech puts 247 horsepower and 245 lb.-ft. of torque underfoot for authoritative launches and gutsy acceleration, even when hauling heavy loads or big trailers. That strong V-6 is mated to an equally advanced and thoroughly robust 5-speed automatic transmission. And both are built extra-tough for the long haul.

## Flog them responsibly.

**POWERFUL FACTS:** Advanced engineering is behind the 3.5-liter V-6 engine's blend of surprising fuel efficiency, low emissions and abundant power — all on regular-grade gas. It begins with a high, 10:1 compression ratio. We also added our patented Variable Valve Timing and Lift Electronic Control (VTEC) as well as a two-stage intake manifold. These systems work together to maximize torque at lower engine speeds, and to help boost horsepower as engine speeds increase. A unique fresh-air intake helps keep output strong even in high-temperature, heavy-duty driving and towing conditions.

The Ridgeline comes right off the showroom floor with most of what you'll need for rigorous hauling duty. It'll tow up to 5,000 lbs.\* And its integrated closed-box frame with unit-body construction gives it truly extraordinary torsional rigidity, so it can pull that heavy load with confidence and control.

\*Standard towing capacity. Actual towing capacity will vary with load and distribution. Always use proper tie-down technique and always use proper hitch and towing package.

# TOW-READY

## 5,000 lbs.\* Zero sweat.

### STANDARD TOWING FEATURES:

- 5.3L V8 engine with 250-hp
- 4-speed automatic transmission
- Heavy-duty 4-wheel drive
- 4-wheel disc brakes
- 4-wheel disc brakes
- 4-wheel disc brakes
- Closed-box frame with unit-body construction
- 5,000-lb. towing capacity

**BUILT TO TOW:** We know that people want a truck that's built to tow in every way. And a big part of trucking is towing. The Ridgeline takes its job description seriously. To start with, it has a 5-speed automatic transmission that's specially geared for towing. There's also a standard heavy-duty radiator with dual fans, a heavy-duty power steering cooler and a heavy-duty ATF cooler, too. There's plenty of stopping power, with big brake rotors at all four wheels, and Electronic Brake Distribution (EBD) for more stable stops. Just add the dealer-installed accessory hitch and harness.

# 4WD

## Go where you want.

It won't matter if your adventures take you off-road or on-road. Honda's sophisticated VTM-4® 4-wheel-drive system can handle just about anything, from a slick, steep boat ramp to a rough-and-tumble back road—instantly putting power to the wheels with the best traction. And with a refined, fully independent suspension, that go-anywhere attitude comes in a curve-hugging, fun-to-drive package.

Ridgeline RTL shown in Steel Blue Metallic with accessory roof rack, bike rack, and towing package.

### SUSPENSION

Unlike most trucks' solid rear axle, the Ridgeline has an independent suspension, both front and rear. So its rugged off-road abilities are paired with a refined on-road ride, a stable, firmly planted feel, responsive steering and confidence-inspiring cornering. And you still get more than 5 inches of ground clearance.

### INTEGRATED CLOSED-BOX FRAME

The rugged closed-box frame is integrated with unit-body construction. It's the best of all worlds: a tougher, low-ready truck with a smooth ride that won't bust your guts.

### FRONT DIFFERENTIAL

Under normal driving conditions, the VTM-4 system channels all power to the front differential. This maximizes efficiency when 4WD isn't needed, like when on dry pavement.

### 4-WHEEL-DRIVE SYSTEM

Sensors continually monitor traction at each wheel and send a stream of data to the VTM-4 ECU. The ECU then instantly distributes torque to all four wheels to maintain optimum traction.

### PROPELLER SHAFT

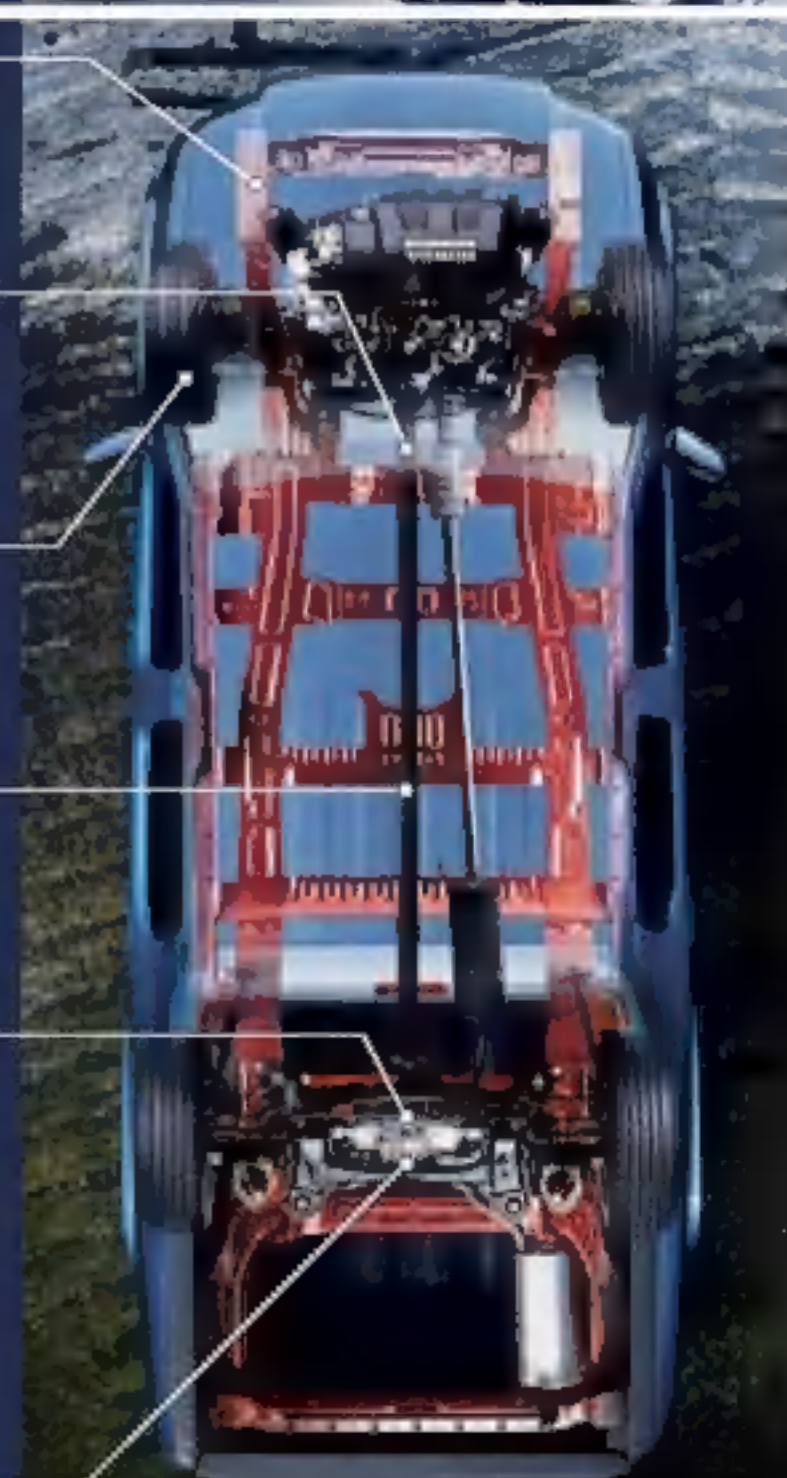

The center propeller shaft continually sends power to the rear differential, where it can be transmitted to the rear wheels. It also features a special damper to help reduce vibration.

### VTM-4 LOCK

When you need to start off in extreme low-traction conditions, such as ice or loose gravel, just push a button to lock the rear differential for extra help to get moving. And it can stay locked up to 18 mph.

### REAR DIFFERENTIAL UNIT

Electromagnetic clutches in the rear differential can be signaled by the VTM-4 system to deliver up to 70% of engine power to the rear wheels for maximizing 4WD.

# We've got your back. And front. And sides.

Get behind the wheel of a truck, and you feel like you could take on just about anything. And no other truck backs up that feeling with as much high-tech, real-world readiness as the Ridgeline. From its reinforced, rigid unit body to airbags to sophisticated stability systems, this pickup truck is a showcase of Honda's automotive "safety for everyone" initiative—a powerful statement of how we're dedicated to putting advanced safety technology in all our vehicles.

## INTEGRATED CLOSED-BOX FRAME

Truck owners know that a true test of toughness is what you have under the hood. So when we built the new Ridgeline, we started with a burly **1500cc** of a body that incorporates a closed-box frame with internal high-strength steel frame stiffeners. And both the frame rails and all seven crossmembers feature box-section construction. The results speak for themselves: huge cargo and towing abilities, remarkably high torsional rigidity and crash-test performance expected to earn the government's highest ratings.<sup>1</sup>

\*Honda reminds you and your passengers to always buckle up.

## REINFORCED UNIT BODY

The Ridgeline's body structure is designed to be highly rigid for enhanced crash protection. It works with front and rear crumple zones that absorb and dissipate crash energy.

## BRAKE ASSIST AND EBD

Brake Assist helps apply maximum braking in emergency situations. And Electronic Brake Distribution (EBD) varies the braking force at each wheel—helpful when hauling uneven loads.

## ANTI-LOCK BRAKING

The anti-lock braking system in the Ridgeline benefits from a 4-channel design, so each wheel is controlled individually. Combined with its large brake rotors, short stops are a snap.

## VEHICLE STABILITY ASSIST

Vehicle Stability Assist (VSA) monitors traction and automatically corrects oversteer or understeer. It can help keep you on your intended path, so you may even know there's a problem.

## TIRE PRESSURE MONITORING

A standard Tire Pressure Monitoring System (TPMS) continually checks the pressure at each tire, and an in-dash display will alert the driver when a particular tire's pressure is low.

## AIRBAGS

Front, side, and side curtain airbags are all standard.\* And a rollover sensor can detect different rollover scenarios, and then deploy the side curtain airbags appropriately.

A high-angle, wide shot of the interior of a Honda Ridgeline pickup truck. The view is from the passenger side looking towards the driver's seat. The front and rear seats are upholstered in a dark gray leather with prominent horizontal stitching. The dashboard and center console are also visible, featuring a mix of dark and light gray plastic and leather accents. The steering wheel has the Honda logo in the center. The windows show a glimpse of a dry, brushy landscape outside. The overall lighting is bright, suggesting daytime.

## Trucking shouldn't mean treating people like cargo.

In a Ridgeline, you get utility as well as comfort. Take command from a wide, supportive seat. The RT2 and RTL models add 8-way power adjustment, as well as dual-zone climate controls. In the RTL model, you get leather trim for extra luxury and easy cleanup, and heated seats, too. Powerful audio systems and an available navigation system with voice recognition\* on select models are welcome perks. All this may be a bit more than you'd expect from a pickup truck. Get used to it.

Ridgeline RTL interior shown in Gray Leather with available Honda Satellite-Linked Navigation System.

**AUDIO SYSTEM:** Pump tunes through a powerful, 8-speaker audio system. Some models add a hidden 8-disc in-deck CD changer, a subwoofer, XM Satellite Radio and even an MP3 auxiliary input port.

**LIFT-UP REAR SEAT:** The Dodge Ram's workhorse-like utility extends into the passenger compartment. The rear bench seat is not only comfortable, it also opens up more storage space for your gear.

**MOONROOF:** The Dodge Ram moonroof can help keep you in touch with the outdoors. And while it provides a panoramic experience, it's also designed to minimize wind buffeting when open.

**60/40 SPLIT:** The power-adjustable rear seat offers lots of options as far as how you configure passengers and cargo. Split 60/40. When more lockable storage space is needed, the 60/40 split seat folds down.

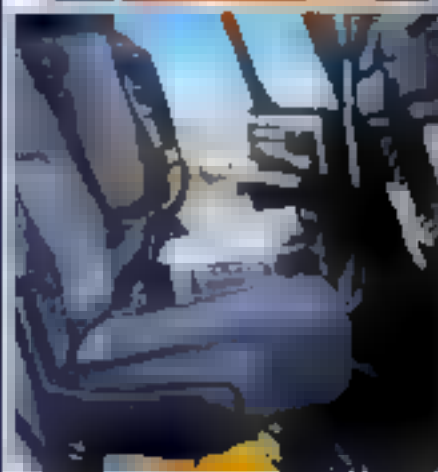

**CENTER CONSOLE:** The center console is a cargo key in and of itself. It'll even get bigger when you slide the front edge forward. It has a wide storage bin, a hidden tray for small items and a sliding pass-through holder that lets you keep your gear organized.

**STORAGE SOLUTIONS:** Pull up the rear seat, and take a passenger along with a whole lot of gear. The rear cargo compartment features 11 tie-downs to help hold everything in place.

**POWER SLIDING REAR WINDOW:** With just the push of a button, you can open the power-sliding rear window and let in a little fresh air. A power window lock lets you close it before exiting.

**REAR STORAGE:** Thanks to the lift-up seat and wide-opening doors, even a full-size mountain bike will fit right in.\* Whether you need that space for pizzas, beer, or some of both, the Dodge Ram is ready.

\*Always remember to properly secure items in the cargo area.

Honda Accord EX-L. Interior shown in Olive Leather with available Honda Satellite-Linked Navigation System.

# BRED TOUGH

Honda roots run deep.

Honda's Heritage®. Honda innovates. We're safety-conscious. We're environmentally concerned. But we also build vehicles that are ready for some serious action. Just take a look back at our product line over the past 50 years—that's all the proof you need that we build some of the world's toughest vehicles. Our ATVs and off-road motorcycles have proven their grit time and time again, winning as numerous breaks, in the dirt, on dusty trails and in the blistering deserts of both Baja and Paris-Dakar. In fact, Honda is the most winning nameplate in the history of the SCORE Baja 1000 desert race. And don't forget our history of building durable, reliable passenger vehicles. Plus, most of our vehicles are proudly assembled here in North America.

Ridgeline RTS shown in Amazon Green Metallic

#### RIDGELINE RT

- 247-hp, 3.5-liter, 24-Valve V-6 Engine
- Green, Full-Flow Filter
- ULEV-2 Emissions Rating
- 5-Speed Automatic Transmission
- Variable Valve Timing
- 4-Wheel Drive System (VTM-4)
- Locking Rear Differential
- 18-Way Fully Adjustable Steering Column
- Heavy-Duty Bumpers with Dual 100-Watt Fans
- Integrated Closed-Box Frame with Unit-Body Construction
- Steel-Reinforced Composite (SRC) Cargo Bed
- 4-Wheel Independent Suspension
- Anti-Lock Braking System (ABS) with EBD and Brake Assist
- Drive-by-Wire Throttle System™
- Vehicle Stability Assist (VSA) with Traction Control
- 100-Watt AM/FM/CD/6-Disc In-Dash Audio System with 6 Speakers
- Tire Pressure Monitoring System (TPMS)
- 100-Watt AM/FM/XM-Ready™/CD Audio System with 6 Speakers
- In-Bed Trunk
- Dual-Action Tailgate
- Power Windows, Door Locks and Mirrors
- 60/40 Lie-Down Rear Seat with Underseat Storage

## Fully loaded or jam-packed with all the extras, the choice is yours.

While the new Ridgeline RT comes equipped with just about everything you'd have in your new truck "I need" column, we left room for a few things from the "I want" side, too. So check out the RTS model's extras, and if you really want to live it up, consider the Ridgeline RTL. And talk to your dealer about the many available Ridgeline accessories. With a Ridgeline, all the choices are good ones.

#### RIDGELINE RTS

- Adds to or replaces RT features:
- 17-Inch Alloy Wheels
  - Security System
  - Body-Colored Side Mirrors
  - Dual-Zone Automatic Climate Control System
  - Steering Wheel-Mounted Audio Controls
  - Driver's Seat with 8-Way Power Adjustment and Manual Lumbar Support
  - 160-Watt AM/FM/XM-Ready™/6-Disc In-Dash CD Changer Audio System with 7 Speakers, Including Subwoofer
  - Exterior Temperature Indicator

#### RIDGELINE RTL

- Adds to or replaces RTS features:
- Leather-Trimmed Seats
  - Heated Front Seats & Driver's Seat with Power Lumbar Support
  - Leather-Wrapped Steering Wheel
  - Heated Side Mirrors
  - Remote Trunk Release System\*
  - Ambient Console Lighting
  - Rearview Mirror with Compass (without Navigation)
  - Available Honda Satellite-Linked Navigation System with Voice Recognition† and MP3/Digital Media Auxiliary Jack
  - Available Power Moonroof and XM Satellite Radio‡

# COLOR

## Make a statement.

This is the fun part—putting together the look that you can call all yours. The new Ridgeline comes in a variety of exterior and interior combinations to suit your style. And the glossy Honda finish is just as beautiful as it is durable. Just give your grille and joy a hose-down once in a while when you need a reminder.

The dealer-installed **Sport Package** outfits your new Ridgeline with a choice of side steps or running boards, brush-guard-style front lower trim and body-colored fender flares for a bolder look. It's just the thing to match its do-it-all, go-anywhere attitude.

The **Lifestyle Package** ups the Ridgeline's utility with a towing package, a roof rack and bed extender. And if installed by your dealer at the time of purchase, accessories are covered by Honda's 3-year, 36,000-mile new-vehicle limited warranty.\*

At Honda, support and assistance are always at the ready. Your dealer's team of trained technicians is there to help keep your Honda car or truck in superb shape. Any Honda accessories installed at the time you buy your vehicle are covered under the 3-year/36,000-mile new-vehicle limited warranty.\* And if you need more information or assistance with our products, please don't hesitate to give us a call at 1-800-33-Honda.

## HONDA

### Financial Services

Whether you buy or lease a Honda vehicle, **Honda Financial Services** can assist you with the process. Please ask your dealer which lease or purchase plan best suits your needs.

## Care

**Honda Care™** is a highly affordable, comprehensive vehicle and travel protection plan backed by Honda reliability, service and parts. Please see your dealer for all the details.

<sup>1</sup>As of 2005, Honda is complying with the new SAE standard for measuring horsepower and torque. SAE net (brake DIN). This new method slightly reduces a vehicle's horsepower rating and torque due to more stringent testing procedures. Many manufacturers are still using the older standard of measurement. Horsepower and torque can only be fairly compared if both vehicles were calculated using the same SAE standard.

<sup>2</sup>Towing requires the addition of the Honda accessory trailer hitch and harness. Refer to the owner's manual for additional towing information. <sup>3</sup>Based on 2005 EPA mileage estimates. Use for comparison purposes only. Your mileage may vary. <sup>4</sup>Based upon internal Honda testing for frontal and side impacts. <sup>5</sup>The Honda Satellite-Linked Navigation System is available only in the 48 contiguous United States on select RT models. "HondaLink" is a registered trademark of Prince Corporation, a wholly owned subsidiary of Johnson Controls. <sup>6</sup>"XM" and "XM Ready" are trademarks of XM Satellite Radio. XM ready audio systems are pre-wired to accept the dealer-installed accessory XM Satellite Radio unit. XM Satellite Radio is available only in the contiguous United States. The XM name is a registered trademark of XM Satellite Radio, Inc.
